Any and all antiquities or coins not sold before the closing date will be sent to the highest bidder on March 16, 1992.

EXAMPLE—You bid estimate on an item valued at \$100.00 and if your bid is the 1st to reach us, you will receive the item immediately. If on the other hand, you bid \$75.00 on the same item and are still the high bidder at the end of the sale, the item will be mailed to you on the closing date, March 16, 1992.

If you are ever in the area, stop in and see us! Of course, it's best to call first.

#### DUCATS OF CHIOS

802. The following group of gold ducats represent 20 different dies of what was once considered a very scarce coin. Struck on the Island of Chios to imitate Venetian ducats they, among other coins struck in various places, played the key role in forming an international monetary unit during crusades. So few of them were known until recently that in his 1965 edition Friedberg valued them at \$500 while common sovereign was valued at \$25 and US \$20 gold piece was \$65. Today the sovereign is \$100 and double eagle is \$450, yet we have an opportunity to offer these rare coins at only \$250. They are part of the hoard recently found and we believe that as soon as market absorbs them, the value will inevitably go back to what it once was. All 20 different varieties, if purchased at once, may start a very interesting collection or a single piece could be a perfect representative of one of the most interesting political and economical episodes of human history.
